PROFILE

Motivated Information Systems student at Telkom University (GPA: 3.55/4.00) with hands-on experience as a Junior Network Engineer at a government agency and two Laboratory Assistant roles in Operating Systems and Information Security. BNSP-certified and MikroTik MTCNA-certified, with a strong foundation in network infrastructure (Cisco, MikroTik), Linux administration, and IT security. Proven ability to work in team environments and manage large-scale technical events. Seeking opportunities in Network Engineering, IT Infrastructure, or System Administration.

Education Level

Sarjana Sistem Informasi, Telkom University

2023 - Sekarang

- **IPK:** 3.55/ 4.00
- **Relevant Coursework:** Computer Networks, Operating Systems, Information System Security, Project Management, Enterprise Architecture, Business Process Engineering, Human Resource Management, Supply Chain Management, Enterprise Systems

Work Experiences

Asisten Praktikum Keamanan Sistem Informasi, SISJAR Laboratory

Feb 2026 - Sekarang

- Guide 30+ students per semester in understanding information security concepts, vulnerability identification, and threat mitigation strategies.
- Demonstrate practical use of network security tools and encryption techniques to maintain data integrity and confidentiality.
- Supervise lab sessions and provide technical assessments for basic security audit tasks on operating systems.

Asisten Praktikum Sistem Operasi, SISJAR Laboratory

Agt 2025 - Des 2025

- Led practical sessions for 30+ students per semester on OS concepts, network administration, and Linux usage in a lab environment.
- Assisted in developing lab modules and objectively evaluated student assignments and practical exams.
- Managed daily lab operations to ensure all hardware and software were ready for teaching and learning activities.

Junior Network Engineer (Magang), Diskominfo Kota Depok

Mei 2023 - Des 2023

- Assisted in repairing and configuring network devices across government buildings to ensure optimal connectivity.
- Performed routine maintenance on network equipment and servers to minimize system downtime.
- Supported the technical team in new network infrastructure installation and on-site connection troubleshooting.

Organisational Experience

Staff Lab (Divisi Pelatihan & Kuliah Umum), EIM Laboratory

Sept 2026 - Sekarang

- Design and organize Study Group programs to enhance students' technical understanding in IT infrastructure.
- Coordinate training sessions and guest lectures to facilitate knowledge transfer from industry practitioners to students.
- Contribute to the development of educational and technical materials for laboratory training programs.

Koordinator Divisi Acara, Kaderisasi HMSI Telkom University

Jun 2025 - Des 2025

- Served as lead coordinator for designing and executing a series of activities for the HMSI Orientation Program.
- Directed division staff in conceptualizing event themes and managing operational logistics during activities.

- Led and monitored work programs including Goes To School, Omikoshi, competitions, and the Main Event.
- Managed team coordination across divisions to ensure all event series ran according to plan.

Skills

- Technical: Cisco, MikroTik, Linux Administration, Information System Security, Network Troubleshooting.
- Software: Cisco Packet Tracer, VMware, VirtualBox, Visual Paradigm, Microsoft Office Suite, Canva.
- ERP / SAP: SAP GUI Navigation, SAP SCM500 (Supply Chain), SAP01 Fundamentals
- Soft Skills: Communication, Team Management, Time Management, Fast Learner, Adaptability
- Languages: Bahasa Indonesia (Native) | English (Passive – Reading & Writing)

CERTIFICATIONS & TRAINING

- **BNSP Junior Network Engineer (2023)** : Official national certification from Badan Nasional Sertifikasi Profesi (BNSP) validating competency in network installation, configuration, and maintenance per Indonesian national standards.
 - **MikroTik Certified Network Associate – MTCNA, ID-Networkers (2023)** : Demonstrates proficiency in MikroTik device configuration and management, covering routing, switching, firewall, and bandwidth management.
 - **SAP SCM500 – Supply Chain Management (2024) — Completed SAP SCM500** : module with hands-on knowledge in SAP ERP for supply chain optimization, procurement processes, and material management.
 - **SAP01 Fundamentals (2023)** : Completed SAP01 Fundamentals training, demonstrating proficiency in SAP GUI navigation and understanding of integrated business processes across core SAP modules.
-
